ORGANIZATION OF CITY GOVERNMENT

Tuesday, January 5, 1926.

The members of the city government for the municipal year of 1926, having met for organization, agreeably to the provisions of the city charter, the convention was called to order by His Honor Mayor Kingsbury at ten o'clock in the forenoon.

Mayor Kingsbury made the announcement that, Arthur R. Jones having been officially notified of his election to the office of mayor for the current municipal term, was present for the purpose of taking the oath of office. The oath of office was administered by Hon. Robert T. Kingsbury, who introduced the Mayor to the aldermen and councilmen elect and to the citizens present.

After roll-call by the clerk, Mayor Jones administered the oath of office to the following named members of the board of aldermen and councilmen, to-wit:

BOARD OF ALDERMEN

Ward 1.—Forrest L. Carey.
Ward 2.—Verne C. Swan.
Ward 3.—Arthur T. Coogan.
Ward 4.—Albert H. Chase.
Ward 5.—Frank R. Bennett.

BOARD OF COMMON COUNCIL

Abijah H. Barrett, Sr.

Ward 4.—Roy A. Sullivan.
Frederick D. Mitchell.
Joseph W. Neaves.

Ward 5.—Roger W. Goodnow.
Fred O. Hamblet.
Rupert C. Robinson.

Prayer was offered by the Rev. Austin H. Reed.

Prayer offered by the Rev. Austin H. Reed at the Inauguration of the City Government, 1926;

Almighty God whose kingdom is everlasting and power infinite; who art the fountain of wisdom and whose word is law; we beg Thy guidance and blessing upon those who have the governance over us in this city; give to him who has been chosen as the head of our municipal government a generous portion of Thy Spirit, and grant that truth and justice may rule in all of the deliberations of those in authority, and that their decisions may promote Thy glory and the true welfare of the people of this city.

Bless and prosper, O Lord the people, the schools, the industries and the Churches of this town. Restrain class hatred, oppression and lawlessness and promote in our midst unselfishness, freedom, true patriotism

and an unbounded love for Thee, Thy Kingdom and all mankind.

This we ask through the merits and in the name of Jesus Christ our Lord and Saviour.

After the prayer Mayor Jones delivered his inaugural address. Frank H. Whitcomb was elected city clerk and Charles S. Wright city messenger, and the councils then adjourned until 7.30 o'clock.

At 7.30 o'clock in the evening the common council organized by the choice of Roger W. Goodnow as president and Harry E. Gale as clerk.

THE MAYOR'S ADDRESS

Members of the City Councils and Fellow Citizens:

We are gathered here today to assume the administration of the city of Keene. The duties of the old administration end today and our responsibilities begin. To these duties only a few bring the valuable experience of one or more years in the councils, but we all do bring the expressed trust of a majority of the voters. In turn, we will give unselfish loyalty and honesty of effort to the successful administration of the city, but the vital thing for successful administration is the efficiency of the heads of departments, together with the sustained interest and effort of committees. It is your duty to elect those department heads for the coming year and I urge you to give this your most sober judgment in your selection of each.

After a careful survey of the work of the various departments, it is very gratifying to report that the general condition is one of progress and prosperity in the city. The city does not appear to require radical departure from the policies already adopted as much as it needs a further extension of these policies.

FINANCE

One of the first and most important duties of the councils is the adoption of the budget for the year. The finance committee's report, together with it's estimated expenses for this year will be found in the city report. I urge you to give it careful study in detail; so that we may inaugurate the most rigid economy.

THE CITY BONDED INDEBTEDNESS

The Union school district bonds,	$160,000.00
Water works bonds,	150,000.00
Highway construction bonds,	30,000.00
Cheshire county jail property notes,	16,000.00
	$356,000.00

The city councils have nothing to do with the Union School District bonds. The councils are responsible for the Water Works bonds, Highway Construction bonds and Cheshire County Jail property notes. The Water Works bonds are to be paid from revenue from this department.

We should be very careful about the raising of money by the issuing of bonds, as it is very easy to issue bonds, but a much harder task to meet them when due, and I would recommend that we give the taxpayers a little relief and not issue any bonds this year.

Few people realize how little the city councils actually have to do with the amount of taxes raised each year. The councils have nothing to do with the raising of the state tax, county tax and the Union School District tax. These taxes total $276,973.15 for the year 1925. These aggregate considerable more than the taxes raised by the city councils; so you will readily see that the city councils can do but little to relieve the tax situation. What we can do and I urge, is that we stop increasing our portion of the taxes, and if possible, lower the same. We should not curtail to such an extent that we will stop progress; as I thoroughly believe that we should make progress each year in the way of permanent improvements.

I wish to bring to your attention that the state tax in-

creased from $34,051.50 in 1924 to $43,320.00, or 22 per cent in 1925. We will receive from the state, from the intangible tax, about $15,000.00 or an increase of about $6,000.00 more than 1924.

I am informed that the state has lowered the automobile registration fee so that it will about offset this additional $6,000.00 we receive from the intangible tax. I call these facts to your attention so that you will not expect relief from the state on the tax situation.

POLICE DEPARTMENT

The affairs of our police department are in a very satisfactory condition. This department particularly should have the whole-hearted cooperation and support of every citizen in its effort to eliminate prevalent forms of crime among us. It should be remembered that our policemen have many disagreeable duties to perform and that the criminally inclined are ever trying to discredit these officials in the eyes of the public and to baffle their attempts at enforcing the law.

I especially urge it as a duty of every citizen of Keene to assist in every reasonable way our police department in their efforts towards the detection and punishment of the so-called "bootlegger" element. Their nefarious traffic should have no place in this city.

FIRE DEPARTMENT

For many years the efficiency of our fire department has been a subject of justifiable pride. The department is well manned and reasonably well equipped with the new high pressure pump and the Beech hill reservoir of 1,500,000 gallons, sufficient to furnish 10 fire streams for 10 hours, with which we can take care of any conflagration. I would not recommend the

buying of additional equipment until after we have given this new equipment a thorough trial.

SCHOOLS

I am in favor of the very best educational facilities in our public schools. We should have the most modern equipment and buildings, since there our children spend a large portion of the formative period, both in their mental and physical development.

HEALTH DEPARTMENT

The activities of the health department have an important bearing on the physical and moral condition of the city. This is a field in which your moral support, as well as that of all our people can be of great help and I urge your interest.

We should be giving some serious thought to garbage disposal, a public comfort station, and drinking fountain in the square.

While we are thinking about the health of man, we should not forget man's two best friends, the horse and dog, and provide them with a centrally located drinking fountain.

WATER AND DRAIN DEPARTMENT

Few people realize that the superintendent of this department, Col. Babbidge, has devoted 38 years of conscientious and faithful work to this department, always striving to protect the people's health and property and during the 38th year of service has seen completed what has always been his ambition, that is, a filter plant to protect your health and a reservoir to protect your property. "This is a piece of work that the citizens of Keene will always be justly proud of as it gives them the purest drinking water of any city in the state." That is

according to a statement by the state chemist. With this work completed, our serious water works problems are solved.

Within the next two years, we will have to lay water pipes and sewers to what is known as Arlington in West Keene.

There is considerable work to be done on the drainage system and I recommend that you adopt some progressive system of building drains, and that the street department cooperate with this department and keep them informed as to the streets they plan on constructing so that the drainage may be taken care of.

HIGHWAYS

There is much to be said on this subject. Good roads are as essential to the prosperity of all as were the railroads of a few years ago. Better highways have become essential to the welfare of the people, and the cost of construction and maintenance has become so vast that the highway question becomes one of the important problems of the present and future.

We have made good progress during the past five years in the way of permanent road construction with the cement work that we have constructed in the square and the principal streets leading from this. While we have been doing this work, we have neglected what we call the side streets and cross-roads and I recommend that you give this part of our highways system the major part of your study and spend whatever money we have for permanent construction on these streets and roads. I also recommend that you give particular attention to the building and repairing of sidewalks.

We should continue with the oiling of our streets and extend this until we are oiling all of them.

The rapidly increasing all-the-year use of automobiles for business as well as pleasure demand that we plow the snow

from some of our main thoroughfares this winter. To what extent we do this work is a question, but it will be but a few years before we will keep all our main thoroughfares open the year around.

CAN CONSULT MAYOR

I want every citizen and particularly the members of the city councils to feel that they are at liberty to come to me at any time and discuss any civic problem.

One of the first problems and without doubt the most important problem that you will have to consider this year, has to do with the zoning of the city. The out-going city government appointed a zoning committee and authorized them to engage an expert on zoning to assist them in drawing up and submitting a zoning plan of the city for your consideration.

I recommend that you enlighten yourselves as much as possible on zoning so that we may act in the most intelligent manner when we are discussing zoning; so that the future growth of the city may be guided along the best lines; as a well thought out plan looking to the future will save the tax payers a large sum of money as well as make your city the most beautiful city in the world which is the desire of every citizen of Keene.

When we were elected to our respective offices by the voters of the City of Keene, we had conferred upon us the highest honor possible for the people of the various wards and the city-at-large to confer. They conveyed a trust and placed us in a position of greater responsibility than any other group of men in this city. You are the directors of a corporation that is larger than any other corporation within the city. You are the directing force of a corporation with an assessed valuation of more than $17,000,000. Your responsibilities are greater than

the combined responsibilities of the directors of the three national banks and the two savings banks in our city. You will be responsible for whatever progress the city may make during the year. You may also by your action retard the present and future growth and prosperity of your city.

STATE OF NEW HAMPSHIRE

Office of Secretary of State

I, Hobart Pillsbury, Secretary of State of the State of New Hampshire, do hereby certify that the following and hereto attached is a true copy of an act entitled

"An Act in relation to the police force of the city of Keene."

(Approved April 10, 1925), as engrossed in this office and in my custody as Secretary of State.

In testimony whereof, I hereto set my hand and cause to be affixed the Seal of the State, at Concord, this 10th day of April, A. D., 1925.

HOBART PILLSBURY,
Secretary of State.

STATE OF NEW HAMPSHIRE

In the year of our Lord one thousand nine hundred and twenty-five.

An Act in relation to the police force of the city of Keene.

Be it enacted by the Senate and House of Representatives in General Court convened:

Section 1. Amend section 4, chapter 153, Laws of 1905, by striking out all of said section and inserting in place thereof the following: Sect. 4. The police force of said city shall consist of a chief of police and not exceeding ten regular police officers, who shall devote such time as shall be required by the commissioners to the performance of the duties of their office, and who shall not be engaged in any other business or occupation (except as constables), and special police officers whenever and in such numbers as they may deem best. All police officers shall be appointed by the police commissioners, and said commissioners shall have the right to remove any member of the police force when in their judgment the public good requires it. All police officers appointed as aforesaid shall have and exercise, when on duty, all the powers possessed by police officers and constables, except as to the service of civil process; and the chief and such of the regular officers as the commission may designate shall be constables for all purposes.

Section 2. This act shall take effect upon its passage.

GEORGE A. WOOD,
Speaker of the House of Representatives.
CHAS. W. TOBEY,
President of the Senate,

Approved April 10, 1925.

JOHN G. WINANT,

Resolved by the City Councils of the City of Keene, as follows:

That a sum not to exceed $200.00 be and hereby is appropriated from moneys, not otherwise appropriated for the installation and erection of three Bubbler Fountains, same to be installed under the direction of the Superintendent of Water Works, of said Keene.

Passed April 15, 1926.

To the City of Keene, New Hampshire:

The executors of the will of Laura E. Mason have filed their account as such executors in the Probate Court.

Mrs. Mason made the following disposition of the residuum of her estate:

"All the rest, residue and remainder of my property and estate of whatever kind and wherever situated I give, bequeath and devise to said City of Keene to be held in trust and to be known as the 'Walter E. and Laura E. Mason Cemetery Fund,' and the interest thereof used in the improvement of the cemeteries in said Keene."

The executors have in their hands $193.12 in cash and the following securities:

Cheshire County Savings Bank Book 17863, with accumulated interest,	$3,200.00
Note Fred J. Leonard, secured by mortgage,	800.00
Liberty Bond,	50.00
Shares in Keene Building & Loan Association maturing in Spring of 1926,	1,000.00
	$5,050.00

Our account will be in order for allowance on February 19, 1926. As soon as convenient after that date we will turn over the estate to the City under the foregoing trust, and request its acceptance by the City Government.

Yours very truly,
MARY E. SARGENT,
ORVILLE E. CAIN,
Executors.

Keene, N. H., January 12, 1926.

A JOINT RESOLUTION relating to the Walter E. and Laura E. Mason Cemetery Fund.

Resolved by the City Councils of the City of Keene, as follows:

That the city of Keene, by its councils, hereby accepts the

Walter E. and Laura E. Mason Cemetery fund, the income thereof to be used in the improvement of the cemeteries in said Keene, in trust, however; and the Trustees of Trust Funds shall receipt for the cash and securities and administer the trust in accordance with the provisions of law.

The councils desire to express in behalf of the citizens of Keene their appreciation of the long and faithful service of the Superintendent's Mason, and their interest in the care of the city's burial grounds, as especially made evident in the above named bequest.

Passed May 6, 1926.

A JOINT RESOLUTION relating to a Protest.

Resolved by the City Councils of the City of Keene, as follows:

Whereas the New England Freight Association has under consideration a proposal to cancel all commodity rates, carloads or less than carloads, on partially or wholly manufactured textile articles, including yarns and knit goods, between points in New England and Trunk Line territories, and whereas

It is believed to be the intention of the railroad to remove articles made wholly of cotton or wholly of wool and partly of wool and partly of cotton from the classifications that have prevailed in the past and to place said finished commodities in new classifications involving a large increase in rates between New Hampshire and New York City, and whereas

These increases in rates will have a disastrous effect upon industries in New Hampshire that are manufacturing articles that are considered as finished products.

The City Councils of the city of Keene, New Hampshire hereby protest against the proposed increases on the ground that they are too drastic, that they apply a higher rate basis to New Hampshire products shipped into New York City than that applied to competing manufacturers in the south, and that these increases will be detrimental to New Hampshire industries and put them at a serious disadvantage in their competition with southern mills, which is already exceptionally keen.

Passed May 6, 1926.

45. Any use which would be injurious, obnoxious, or offensive to a neighborhood by reason of noise, vibration, smoke, cinders, odor, gas, fumes, dust, chemicals, or other objectionable feature, or dangerous to a neighborhood through fire, explosion, or any other cause.

SECTION 7. UNRESTRICTED DISTRICTS

In the unrestricted districts, buildings and structures may be erected, constructed, altered, enlarged, repaired, reconstructed, and used and land may be used for

A. Any purpose or accessory use not otherwise prohibited by law or ordinance; provided that

B. No building or structure shall be erected, constructed, or used as a dwelling house until permission is obtained from the Board of Adjustment under the provisions of Section 19, which permission shall not be granted unless the Board shall find that

1. The location and the plans for the building or structure proposed to be used as a dwelling house are such as will not be injurious to
   a. The health and morals of the occupants, and
   b. The health, morals, and general welfare of the public, and
2. Shall impose appropriate conditions and safeguards for the protection of the occupants, the neighborhood, and the public.

SECTION 8. NON-CONFORMING BUILDINGS, STRUCTURES, AND USES

This ordinance shall not apply to existing buildings and structures, nor to the existing use of any building or structure; but it shall apply to any alteration of a building or structure to provide for its use for a purpose or in a manner substantially different from the use to which the building or structure was put before alteration.

SECTION 9. PUBLIC SERVICE CORPORATION

A building used or to be used by a public service corporation may be exempted from the operation of this ordinance if upon petition of the corporation, the Public Service Commission shall, after a public hearing, decide that the present or proposed situation of the building in question is reasonably necessary for the convenience or welfare of the public.

HEIGHT REGULATIONS

SECTION 10. SINGLE RESIDENCE, GENERAL RESIDENCE, AND SEMI-RESIDENCE DISTRICTS

In the single residence, general residence, and semi-residence districts, no building or structure shall be erected, constructed, altered, enlarged, repaired, reconstructed, raised up, or moved so as to contain more than three stories, or so as to exceed in any part a height of forty-five feet, except in the case of chimneys, ventilators, tanks, penthouses, and other accessory features required above roofs, and also in the case of towers, spires, domes and ornamental features of churches and other non-residential buildings.

SECTION 11. BUSINESS, INDUSTRIAL, AND UNRESTRICTED DISTRICTS

In the business, industrial, and unrestricted districts, no building or structure shall be erected, constructed, altered, enlarged, repaired, reconstructed, raised up, or moved so as to contain more than five stories, or so as to exceed in any part a height of seventy-five feet, except in the case of chimneys, ventilators, tanks, penthouses, and other accessory features required above roofs, and also in the cases of towers, spires, domes, and ornamental features of churches and other non-residential buildings.

AREA REGULATIONS

SECTION 12. SINGLE RESIDENCE DISTRICTS

A. In the single residence districts, no building or structure or buildings or structures on any one lot, shall be erected, constructed, altered, enlarged, repaired, reconstructed, raised up, or moved, so as to occupy at the level of the first floor, or above, more than forty percent of the area of this lot, except for uncovered porches or steps, or, at the level of the second

floor, so as to occupy more than thirty percent of the area of the lot.

B. No part of any building or structure used or intended to be used for dwelling purposes shall be located nearer than five feet from the line of any adjoining lot, or nearer than ten feet from any other building or structure used or intended to be used for dwelling purpose on the same lot.

C. No part of any building or structure, except uncovered steps, shall be located nearer than fifteen feet from the street line of any public or private street or way.

SECTION 13. GENERAL RESIDENCE DISTRICTS

A. In the general residence districts, no building or structure or buildings or structures on any one lot, shall be erected, constructed, altered, enlarged, repaired, reconstructed, raised up, or moved so as to occupy at the level of the first floor or above more than fifty percent of the area of the lot, except for uncovered porches or steps.

B. No part of any building or structure used or intended to be used for dwelling purposes shall be located nearer than three feet from the line of any adjoining lot, or nearer than six feet from any other building or structure used or intended to be used for dwelling purposes on the same lot, except that the provisions of this paragraph shall not apply to the party or division wall between the parts of a double house, semi-detached house, or group house.

C. No part of any building or structure, except uncovered steps, shall be located nearer than ten feet from the street line of any public or private street or way.

SECTION 14. OUTSIDE WINDOWS

No building or structure shall be erected, constructed, altered, enlarged, repaired, reconstructed, raised up, or moved so that any room in which any person lives or sleeps shall be without one window which opens directly on the outside air,

and has an unoccupied space directly opposite such window and at right angles to it of not less than five feet.

SECTION 15. REDUCTION OF LOT AREA

No lot shall be reduced in area so that the distances between buildings or structures and lot lines or street lines shall be less than the distances required under the provisions of sections 12 and 13, or so that the percentage of lot area occupied at the level of any floor is greater than the percentage permitted under the provisions of sections 12 and 13.

SECTION 16. DISTRICT BOUNDARIES

The location of the boundary lines shown upon the zoning map which accompanies and is a part of this ordinance shall be determined as follows:

1. Where the boundary lines are shown upon the map within the street lines of public or private streets or ways, the center lines of such streets or ways shall be the boundary lines.
2. Where the boundary lines are shown approximately on the location of property or lot lines and the exact location of such boundary lines is not indicated by means of figures, distances, or otherwise, then the property or lot lines shall be the boundary lines.
3. Boundary lines located outside of street lines and shown approximately parallel thereto, shall be regarded as parallel to such street lines; and figures placed upon the map between such boundary lines and the street lines shall be the distances in feet of such boundary lines from the street lines, such distances being measured at right angles to the street lines unless otherwise indicated.
4. In all cases which are not covered by the provisions of this section, the location of boundary lines shall be determined by the distances in feet, if given, from the

other lines upon the map or, if distances are not given, then by the scale of the map.

5. Wherever any uncertainty exists as to the exact location of a boundary line, the location of such line shall be determined by the Inspector of Buildings.

SECTION 17. DEFINITIONS

The following terms, when used in this ordinance, shall have the meanings respectively given them:

1. **Private Garage:** A private garage is a building, structure, or shelter, or part thereof, in which one or more motor vehicles, belonging to not more than two persons, one of whom at least is the owner or a tenant of the premises, one of which motor vehicles may be a commercial vehicle of not more than one and one-half tons weight or capacity, are kept solely for the private or professional use of their owner, and in which garage no space is rented out for a commercial vehicle nor to more than one person other than the owner or a tenant of the premises.

2. **Private Stable:** A private stable is a building, structure, or shelter, or part thereof, in which one or more horses belonging to not more than two persons, one of whom at least is the owner or a tenant of the premises, are kept solely for the private or professional use of their owner, and in which stable no space is rented out to more than one person other than the owner or a tenant of the premises.

3. **Group Garage:** A group garage is a building, structure, or shelter, or part thereof, other than a private garage or a group of private garages or other buildings, structures, or shelters, in which motor vehicles are stored and taken care of by their respective owners, who are either owners or tenants of the space in which their motor vehicles are stored, all of which motor vehicles

are solely for the private or professional use of their owners, no person storing more than one commercial vehicle in the space which he owns or rents, nor a commercial vehicle of more than one and one-half tons weight or capacity, nor one owned by any one except himself.

4. **Business Garage**: A business garage is a building, structure, or shelter, or part thereof, in which one or more motor vehicles, belonging to the owner or a tenant of the premises, are kept for the use of such owner or tenant, for the carrying of loads other than passengers for profit, for any work in connection with the business of the owner of such motor vehicles, which may be kept for sale, for exhibition or demonstration purposes, but not for hire. A salesroom or showroom for motor vehicles in which any vehicle is kept with gasoline in its tank, shall be regarded as a business garage, and also any building in which motor vehicles are kept in dead storage for profit.

5. **Business Stable**: A business stable is a building, structure, or shelter, or part thereof, in which one or more horses, belonging to the owner or a tenant of the premises, are kept for the use of such owner or tenant, for the carrying of loads other than passengers for profit, for any work in connection with the business of the owner of such horses, which may be kept for sale, but not for hire.

6. **Public Garage**: A public garage is any building, structure, or shelter, or part thereof, in which motor vehicles are kept in live storage for profit, for the carrying of passengers for profit, for hire, or for any other purpose not included in the definition of a private garage, group garage, or business garage.

7. **Public Stable**: A public stable is any building, structure, or shelter, or part thereof in which horses are

kept for profit, for the carrying of passengers for profit, for hire, or for any other purpose not included in the definition of a private stable or a business stable.

8. **Gasoline Filling Station.** A gasoline filling station is a building, structure, or shelter, or part thereof, used in connection with tanks, pumps, and other appliances, for supplying motor vehicles with gasoline, compressed air, oil, water, and similar supplies for profit, but not used for the purpose of making repairs.

9. **Service Station**: A service station is a building, structure, or shelter, or part thereof, used for supplying accessories to or parts of motor vehicles for profit, with facilities for making minor changes and adjustment to motor vehicles, but not structural changes or repairs, nor doing work involving the use of machinery.

10. **Garage Repair Shop**: A garage repair shop is a part of a public garage where only minor structural repairs are made to motor vehicles for profit, by means of lathes, vises, hand or foot operated machinery, and other appliances, but not by means of heavy machinery.

11. **Motor Vehicle Repair Shop**: A motor vehicle repair shop is a building, structure, or shelter, or part thereof, in which major structural repairs are made to motor vehicles or a repair shop in a garage or other building, structure, or shelter, in which heavy machinery is used. An automobile school shall be regarded as a motor vehicle repair shop.

12. **Non-Conforming Building or Structure**: A non-conforming building or structure is a building or structure the use of which in whole or in part, does not conform to the use regulations of the district in which the building or structure is located.

13. **Non-Conforming Use**: A non-conforming use is a use

in any building or structure which does not conform to the use regulations of the district in which such use exists.

SECTION 18. EXECUTION

The Inspector of Buildings shall execute the provisions of this ordinance, except when otherwise provided, and in so doing he shall have the same powers as are provided for the execution of the Building Ordinances. No building or structure shall be erected, constructed, altered, enlarged, repaired, reconstructed, moved, or raised up, and no building, structure, or land shall have its use changed without the approval of the Inspector of Buildings, which approval shall only be given if the proposed erection, construction, alteration, enlargement, repair, reconstruction, moving, or raising up of any building or structure, or the change of use of any building, structure, or land is in accordance with the provisions of this ordinance and of Chapter 92 of the Public Acts of 1925.

SECTION 19. BOARD OF ADJUSTMENT

A. Within thirty days from the time this ordinance takes effect, and thereafter in the month of January and at such times as vacancies shall occur, the city councils in joint convention shall elect a board of adjustment to act under provisions of Chapter 92 of the Public Acts of 1925. The board of adjustment shall consist of five members to be elected for a term of three years and one member shall be chosen from each of the five wards of the city.

B. The Board may permit in a single residence district the alteration, enlargement, repair, reconstruction, and use of a single family house, existing at the time this ordinance takes effect, as a residence for not more than two families, provided that the Board finds that the original buildings can no longer be used at a rea-

sonable expense or at a fair financial return for a use permitted in the district.

C. The Board may permit in a semi-residence or business district the use of a larger floor space or area of land for manufacturing than two thousand square feet, provided that the Board finds that deprivation of the larger space would involve practical difficulty or unnecessary hardship, and that the larger space would not substantially reduce the value of any property within the district nor otherwise be injurious, obnoxious, or offensive to the neighborhood.

SECTION 20. CHANGES

This ordinance, with all the amendments thereto, together with the boundary lines of the districts and the Zoning map, may from time to time be amended, supplemented, changed, modified, or repealed. In case, however, of a protest against such change, signed by the owners of twenty percent or more either of the area of the lots included in such proposed change, or of those immediately adjacent in the rear thereof extending one hundred feet therefrom, or of those directly opposite thereto extending one hundred feet from the street frontage of such opposite lots, such amendment shall not become effective except by the favorable vote of three-fourths of all the members of the City Councils, which vote shall not be taken until after a public hearing in relation to any proposed change, at which parties at interest and citizens shall have an opportunity to be heard, of which hearing at least fifteen days' notice of the time and place shall be published in an official paper, or a paper of general circulation.

SECTION 21. EXISTING ORDINANCES NOT REPEALED

Nothing contained in this ordinance shall be construed as repealing or modifying any existing ordinance or regulation of the city, but shall be in addition thereto. This ordinance shall

not be construed to affect Chapter VIII of the City Ordinances which Chapter shall remain in full force and independent hereof.

SECTION 22. INVALIDITY

The invalidity of any Section or provision of this ordinance, or of any district or part thereof, as laid down upon the Zoning map, shall not affect the validity of any other section or provision of the ordinance, or of any other district or part thereof as laid down upon the Zoning map.

SECTION 23.

Upon acceptance of this ordinance the joint standing committee on printing shall immediately cause to be printed and distributed suitable maps of the various zones which are hereby accepted in connection with the ordinances.

Passed December 2, 1926.

ROGER W. GOODNOW,
President, Common Council.

ARTHUR R. JONES, Mayor.

A true copy, Attest:

FRANK H. WHITCOMB, City Clerk.

ITEMS OF INTEREST

The Keene Water Works were established and have been extended from time to time by authority of a charter from the legislature of New Hampshire, granted July 3, 1861, and amendments thereto dated June 24, 1868.

The first contract was made with the Patent Water and Gas Pipe Co., of New Jersey, September 3, 1868.

Water was let into the system November, 1869.

1872.

Beech Hill reservoir was built and connected with the system.

1882.

The Waring system of sewers was adopted and turned over to the city in 1883.

1886.

The Roxbury supply was brought into the city via Beech Hill.

1890.

The first meters were installed.

1891.

Ten and one-half miles of cement lined pipe were replaced with cast iron. There remains in service (1916) 7,047 feet in Court Street, 400 in Roxbury Street, and 186 in West Street.

1902.

Additional water from Roxbury was brought into the city via South Keene.

1908.

The Board of Water Commissioners was abolished by the City Councils.

1910.

The dam at Echo Lake was rebuilt, raising the water in the lake six feet.

1914.

The meter system was adopted and all services ordered metered.

1917.

Guards maintained at Echo Lake for three months.

1924.

By vote of the City Councils two filters and a storage reservoir were authorized. One filter and reservoir on Beech Hill and one filter at the stone dam.

1925.

The Beech Hill filter and reservoir was completed and water turned into City October 7, increasing the pressure about twenty-five pounds.

An Altitude Valve was placed in the Court Street main thereby eliminating all waste and reducing the pressure in the old cement lined pipe.

The stone dam filter was completed and water turned on December 9th.

Pipe drains, 122,745 or 23 miles, 1,305 ft.
Stone drains, 710 or 710 ft.
Open drains, 18,595 or 3 miles, 2,755 ft.

RECOMMENDATIONS

I respectfully recommend:

1. That the water pipe be extended in Park Avenue, then in Royal Avenue, Arlington Avenue, Pinehurst Avenue and Stanhope Street.

2. That a water and sewer pipe be laid in Belmont Avenue.

3. That one thousand dollars ($1,000.00) be expended in Roaring Brook cleaning the channel and banks.

The filters are in good condition and working satisfactory.

I recommend that the same amount be appropriated for drains as last year.

Respectfully submitted,

PAUL F. BABBIDGE,

Supt.

REPORT OF CITY MESSENGER

To His Honor the Mayor and the City Councils:

In accordance with the City Ordinance, I submit my ninth annual report as City Messenger.

All moneys received for the rental of City Hall from societies, organizations and individuals have been deposited with the City Treasurer and vouchers returned to the City Clerk.

Statements of monthly receipts as follows:

December, 1925,	$246 00
January, 1926,	214 00
February, 1926,	193 00
March, 1926,	143 00

May, 1926,	134 00
July, 1926,	30 00
September, 1926,	60 00
October, 1926,	165 00
November, 1926,	330 00
	$1,594 00

The condition of the hall interior is very satisfactory with the exception of the stage curtain which is not in good running condition and is the subject of much criticism by parties hiring the hall.

I wish to thank the Mayor and the City Committees for advice and courtesies extended to me this year.

Respectfully submitted,

CHARLES S. WRIGHT,
City Messenger.

December 1, 1926

REPORT OF SUPERINTENDENT OF HIGHWAYS

To His Honor the Mayor and Gentlemen of the City Councils:

I beg leave to submit my report for the year 1926.

That part of West St., across the flat, West of the Ashuelot River was in rather bad condition, but as crushed stone had been used in its construction it was possible to scarify and reshape without the use of much new material. After the surface was thoroughly compacted and rolled it was given two treatments of "Tarvia," a coat of clean sand and an application of oil.

Beyond this on Arch St. about one mile of road was scarified and reshaped with the grader, then treated with "Tarvia." Owing to the quality of gravel on this road, it being somewhat clayey, oil and tar treatment does not prove as satisfactory as in most other places.

Beyond this point the road is unimproved to the Chesterfield line. This piece of road, however, was put in as good shape as possible with the grader and drags, some gravel being added, after which calcium chloride was applied.

A rough, badly worn section of Water St. was scarified and brought to grade with river gravel. After being rolled and thoroughly compacted it was treated with an application of "Tarvia B."

Concord and Chesterfield roads, which are a part of the "Cheshire Cross Country Road," so called, are in need of improvements in many places, but as the state appropriations for this work are small it will be some time before the roads are in a first class condition. In the mean time improvements are being made in some places where the roads are the worst. Last

winter before the arrival of snow a cobble base with gravel top was laid on half a mile of the Concord Road, extending from the top of Beech Hill past the Davis Place and connecting with a piece of state road. This stretch of road was well graded so no excavation was necessary, the stone base being laid directly on the old roadbed.

Sections of Allen Ct., North St., Rule and Spruce Streets were given good coats of gravel in the bad places, also parts of the Branch Rd., Chapman Rd., Roxbury South Rd., and Roxbury Middle Rd. were given the same treatment.

Roxbury St. hill near the octagon reservoir was given a good coat of gravel and two applications of "Tarvia B." This treatment seems to be the cheapest way to maintain these hill roads that are likely to wash.

STATE AID CONSTRUCTION

The State Aid Money for 1926 has been expended on the Concord, or "Cheshire Road," so called. A section of this road extending about one half mile South Westerly from its intersection with the Branch Road was constructed of stone base with gravel top. This road being narrow required considerable widening and as the cut was largely in rock the expense of this widening was nearly one half of the total cost. New culvert pipes were installed at all the old waterways and some new ones were also necessary.

The City expended on this work,	$10,691 52
The State expended on this work,	262 72
Total,	$10,954 24
Due from State Jan. 1, 1927,	4,516 46
	$6,437 78
Due from State, April 1, 1927,	697 93
Cost the City of Keene,	$5,739 85

There is also due the City of Keene, Jan. 1, 1927 the sum of $1,317.16 from the state for trunk line maintenance, and $317.17 due the City from the State for State aid Maintenance.

OIL AND TAR TREATMENT

The usual method of street oiling has been followed this year, the oiling, as well as the patching is charged in a lump sum as this work is separate from the regular street cleaning and repairs. The past year, owing to so many streets being in good condition and needing only a small quantity of oil it has been possible to oil more streets than in the past.

Cost of oil and tar for this year is as follows:

Barrett Co.	
2½ cars K. P. Material, including freight,	$2,052 33
4 cars Tarvia B, applied,	5,536 17
Standard Oil Co.	
5 bbls. K. P. Material,	51 92
4 cars asphalt No. 6, applied,	3,884 87
1 car Binder A, applied,	986 02

Cost of Oil and Tar for this work $12,511.31, cost of labor $3,852.75, cost of labor cold patching $3,370.52.

There is a persistent demand for a further extension of this work which would make necessary a larger appropriation for this service.

All patching of streets is done, as far as possible, in the Spring before oil is applied, many times however, patching becomes necessary because of openings made in streets as well as through natural wear. Therefore this work must be continued all through the season at considerable expense.

CARE OF TREES

For this purpose $3,000 was appropriated, this sum has been exceeded however, as the severe wind storm of July 22nd, caused an unforseen expense of several thousand dollars to this department.

Many trees were levelled to the ground, others found lodgement upon houses and barns, some were partially held from falling by the electric and telegraph wires while others carried wires and poles with them to the ground. Several streets were completely blocked to traffic and the whole force of the department was concentrated for several days upon clearing the streets and relieving the danger from wires and falling limbs.

Approximately 400 truck loads of debris from this storm were hauled to the city dump, the heavier pieces being removed by the tractor and wheel boat. Several large trees, not uprooted, but so badly weakened that they were a constant danger were taken down, and many others in different parts of the City will soon need attention.

CLEAN UP WEEK AND INCINERATOR

During this week 160 truckloads of rubbish were collected and disposed of at a cost of $348.47.

The amount of refuse taken to the incinerator continues to increase each year, the plant being worked at times to full capacity. Last year quite extensive repairs were made, so this year practically no repairs have been necessary.

ARCH BRIDGE AT BRANCH

A concrete curbing and a substantial railing of steel posts embedded in the concrete with 3″ x 6″ rails has replaced the old stone posts and rails on the East side of this bridge. This work was necessary, as early in the summer an automobile hit and broke off three of the stone posts, and carried with them several lengths of railing.

The stonework of the bridge was removed down to the ring of the arch and a concrete wall or curbing built to a height of 10 inches above the roadway.

A concrete abutment has also been built on the South East corner of the bridge, making the roadway about 4 feet wider at this point.

Both the abutment and the curbing were adequately strengthened with steel bars.

WEST ST. BRIDGE

The steel bridge over the Ashuelot River at West St. has been replanked and repainted. After the removal of the old planking it was found that several of the steel stringers under the electric railroad track were so badly rusted as to be unfit for service.

These stringers were removed and replaced by others which were cut to fit from material on hand.

All the old planking and timbers were removed and before being replaced by the new chestnut lumber, the whole steel frame was given a thorough painting with red lead.

The coping stones on the wall, at the mill pond opposite the Faulkner and Colony mill, were shifted from their original positions causing the iron railing to be out of alignment and to lean toward the pond.

These stones were pushed back and trued up, and while no attempt was made to entirely reset the stones, considerable mortar was placed under them and the railing is now safe and in much better alignment.

The old wooden railing at each end of the iron railing was taken down and a new set of posts and rails put in its place.

SIDEWALKS

Construction of cement concrete sidewalks began somewhat earlier this year than usual, which allowed this department to complete its work before cold weather arrived, although more sidewalks were built this year than ever before.

These included Beech St. walk, a portion of which was relaid, Franklin St., Forest St., Summer St., Central Sq. and Cor. of West St., Beaver St. at entrance to Woodland Cemetery, Spring St., near Franklin and Main St., between Davis St. and Winchester St., making a total of more than 5/6 of a mile and

a total of 3,300 sq. yds. of walk at a cost of $2.50 per yard.

Petitions have been granted and plans prepared by this department accepted, for the building of cement concrete walks on the following streets.

Beaver St., south side, Washington to Franklin.
Court St., Linden St. south to present concrete walk.
Court St., Vernon to High St.
Bruder St., Hyde St. Easterly to present concrete walk.
Gurnsey St., Church St. to present concrete walk.
Leverett St., River St. to School St.
Winchester St., Main St., westerly.

The approximate cost of these walks will be $9,000.00. The abutters returning 1/3 of the cost to the city, or $3,000.00. Therefore an appropriation of $6,000.00 will be necessary for the construction of these walks. If any other walks are contemplated, a correspondingly larger appropriation will be needed.

Concrete sidewalk appropriation for this year,	$3,500 00
Balance from last year,	732 68
Received from assessments,	3,301 28
Total receipts,	$7,533 86
Cost of constructing walks,	6,818 09
Amount on hand,	$715 87

The sum of $1,399.07 in assessments, is still due the city from abutting land owners.

GRAVEL WALKS

Much more work has been done on these walks than usual and many that were in bad condition have been improved, some by surfacing up with gravel and others that were overgrown with grass and weeds have been lined out and regraded. Walks on parts of forty streets have been resurfaced with stone dust, over fifty carloads having been used for this purpose.

Judging from favorable reports, no like sum of money has been spent by this department which has benefited so many people. Considerable more work of this nature is needed and I recommend that this method of construction be continued.

ARTHUR A. WALLACE,

Superintendent of Highways.

ARTHUR A. WALLACE,

Superintendent of Highways.

Keene, N. H., Dec. 10, 1926.

REPORT OF PARK COMMISSIONER

To the Honorable Mayor and City Councils:

During the past year it has been the endeavor to conserve a portion of your appropriation, in order to accumulate a surplus that would permit a larger future development of Fuller Park.

The location and size of this attractive new city property offer unusual opportunities for the creation of both a beautiful park and a much wanted playground. It is hoped that a comprehensive plan permitting progressive development of the southern portion may be secured at an early date and a start made during the coming year. In the northwest portion a suggested development would be to move the wood shed and utilize it for a field house and to build tennis courts and other play facilities for a much desired community recreation center.

At Fuller Park the past year, the walks have been widened and resurfaced and the grass and hedge kept trimmed. The larger part of the year's work has been at Wheelock Park, where the roads have been scraped and smoothed and desirable trimming and thinning done. The heavy wind storm of last summer blew down several of the fine old pines which necessitated a considerable amount of extra work. This park, as usual, has been largely used, not only as a public playground but by numbers of public and private gatherings.

Some clearing has also been done in Robin Hood Park and the policy of cutting birches that are retarding the growth of the young pine on the Drummer land is being continued.

Ashuelot Park on Winchester and Island Streets has also been cleared and a small start made on grading. It is suggested that filling be continued here and that loam be put on

the adjacent triangular plot that it may be made more attractive.

Respectfully submitted,

ROBERT T. KINGSBURY,

Park Commissioner.

REPORT OF HEALTH OFFICER

To the Board of Health:

I herewith submit my report as Health Officer for the City of Keene for the year ending December 1, 1926.

The year 1926 has been the freest from contagious disease, which the City has enjoyed for several years, as there has not been an epidemic of any contagious disease, except a small outbreak of German Measles in April, with only five cases of Diphtheria, and eight cases of Scarlet Fever. There was one death from Scarlet Fever, this case was brought here from Jaffrey and operated on at the Hospital.

I wish again to call the attention of parents to the law requiring the reporting to the Board of Health of all known cases of contagious or infectious diseases.

SANITARY INSPECTIONS

This important work of the department has been given careful attention the past year, and I think the condition of the City will speak for itself, while there are a few that insist on leaving empty boxes, barrells, and waste papers in the rear of their stores, and in back yards, which is not only unsanitary and unsightly to their neighbors, but the papers blow out in the street causing unnecessary work for the street department. While I know that the stores must have some place to keep their waste material, if they would have this removed once or twice a week, and have covered containers to keep loose material, and papers in, the back of our blocks would be much more attractive, and sanitary, to say nothing of the reduction to the fire risk.

I wish at this time to not only invite, but urge all persons that know of any unsightly or unsanitary condition, to report the same to this office, and I can assure them that the condition will be investigated at once, and that their information will be confidential, and will go a long way toward keeping our city clean and attractive.

No greater service can be rendered to insure the peace and general prosperity than to improve the health of the City, and in this field of labor there should be no jealousies, but rather cooperation, as a low standard of health in any City is a menace to all its Citizens.

MILK SUPPLY

During the year I issued one hundred and fifty-eight licenses, and refused five, of these over one hundred are producers, and vary in quantity from a few quarts to thirty cans a day, a large number of these producers live outside the City limits and in the surrounding Towns, their milk is brought to the City and sold to local dealers who bottle it and deliver it to their customers. No milk is allowed to be bottled on the street or in stores, except where they have a separate milk room fitted with hot water. All milk must be drawn from tuberculin tested cows, of which record is kept in this office, these cows, barns, and conditions are inspected as often as possible, and if conditions were found bad, the owners have been made to improve them, and in most cases they have done so willingly, so as a whole I think that the people are getting as good a quality, and as clean milk as can be produced for the price they are paying for raw milk. If anyone is continually getting milk that is low in butter fat, or dirty, or in dirty bottles I would appreciate it very much if they would report it to this office.

Anyone wishing to know the quality of milk, or the condition of cows or premises of any milk dealer they can do so by consulting this office, as samples of milk are taken from dealers and sent to Concord as often as possible for analysis.

I wish at this time to call the attention of the next City Government to the very urgent need of a comfort station, and the removing of garbage, also the condition at Arlington in West Keene. While I have had several samples of water analysed during the present year and it has been found to be good, it does not seem possible that with the increased population, the nature of the soil, and use of so many dry toilets that this condition can last for many years without contaminating the present water supply.

REPORT OF TRUSTEES OF KEENE PUBLIC LIBRARY

To the Honorable Mayor and City Councils:

Gentlemen: The Trustees of the Keene Public Library submit the following report:

The Library has passed a successful year with a gratifying increase in circulation and in use of the Children's Room. The Librarian's report on the following pages gives interesting statistics and details of this increase.

There has been one change in the Library staff during the year. Miss Dean, Children's librarian, left Keene in May to fill a position elsewhere and in June Miss Theresa Proctor who had just finished her course at Wheaton College was secured for one year. Miss Proctor had previously helped at the Library and is now able to assume charge of the Children's Room. Miss McGregor again has helped during the vacation period of the regular staff and for extra service as the demands of students and the children as well as of the general public during certain hours keeps the entire staff employed.

In June the Trustees sent Miss Saxton to the meeting of the Library Association held this year in Littleton. During the week of the "Better Homes" demonstration in City Hall, Miss Saxton, with the help of one of the trustees arranged an exhibit called the "Model Library"; the interest this called forth had its effect in making the privileges of the Library known to a wider circle of readers. The deposit station at George Street Chapel has been continued and not only proved its usefulness in that neighborhood but introduced the people to the use of the main library.

Less repairing was necessary in the building than last year but some new equipment was demanded. A filing cabinet for

the files of the New Hampshire Sentinel has been bought and placed at the end of the stack room, making it possible to protect these valuable papers from careless handling. The patronage of the Children's Room outgrew the small desk at first provided and a new and adequate charging desk has been added. A new book truck has also been purchased.

Especial effort has been made to secure books of lasting value for all classes of readers.

The Trustees have lost by death one of their number, Mrs. Gardner C. Hill, whose regular attendance at the meetings of the Board testified to her interest in the Library and its varied activities.

The absence of our secretary, Mrs. Prentiss, for some months abroad deprives the Library for a time of her faithful and untiring service.

The Librarian's report giving further information and statistics is hereby appended.

KATE L. TILDEN,

Acting Secretary.

December 3, 1926.

REPORT OF LIBRARIAN

To the Board of Trustees of the Keene Public Library:

The report of the librarian for the year 1925-1926 is herewith presented.

This year's statistics tell the story of a busy year but not the whole of it for the reading and reference rooms have had many patrons whose hundreds of questions have been answered and books supplied to them without any record. The increase in circulation has been 5480 and this added work has been accomplished with no regular addition to the staff. A Normal School student acted as page for a few weeks last spring and for the last month we have had the help of a part-time worker, Miss Bessie McGregor, a former assistant.

A very good gain in non-fiction circulation indicates that the library continues to act as a school laboratory for many classes also that the cause of adult education is on the gain and that an increasing pleasure is found in the reading of good travel, biography, etc. The present circulation of fiction is 71% and that of non-fiction 29%. The per capita circulation is 6½.

The greatest gain, however, has been in the children's reading as over half of the total increase is accredited to their department. With the hope of leading to better reading, story hours have become the rule, instead of an incidental treat as formerly. Miss Dean took up her work with aptitude during her stay and Miss Proctor is carrying it on at present and is to be assisted through the school year, by a group of young women who are studying the art of story-telling under Miss Eppinger at the Normal School. Vacation Clubs, though comparatively small in enrollment, were made up of enthusiastic young readers and one member of each of the clubs, Travel, Hero and

Nature, told a story at the gathering in October when the certificates were awarded.

Children's Book Week was observed by displays of posters and books and a story-hour. The various church calendars contained notes of the Week or the ministers called the attention of their congregations to the importance of the reading of young people. That all these means were not without effect was apparently proved by the fact that the day following the close of the week, the circulation in the children's department was the largest on record.

At the first city celebration of Better Homes Week, the library had a booth at city hall arranged as a home library in which the bookcases contained a good suggestive library for any home, a well-filled children's bookshelf and a display of books on domestic science also magazines particularly useful in a home, while the library table contained a tempting assortment of recent books for a week-end's reading. Lists on various topics were distributed and some one was in constant attendance to answer questions.

As usual, the library has received gifts of books from various sources. The largest number came from the library of the late Dr. and Mrs. G. C. Hill.

During the year, the librarian was privileged to attend the annual state library meeting, to act as chairman of the State Scholarship committee, to assist in arranging a neighborhood meeting at Hinsdale and to give talks at the Normal School before the class in vocational civics and for the Symonds Parent-Teachers association.

Thanks are due to the Trustees for encouragement in the work and to each member of the staff in appreciation of patient, enthusiastic and hard work in this our busiest year, and are gladly extended by the librarian.

In looking forward to another year, it is perhaps wise to call your attention to the need of repairs already suggested, to the necessity of providing larger funds for the increasing work

that the supply of books may be adequate and assistance secured as the need may arise through the winter.

Respectfully submitted,

MARY LUCINA SAXTON.

REPORT OF CITY SOLICITOR

To His Honor the Mayor, and Members of the City Councils:

The following report of the activities of the City Solicitor is respectfully submitted.

All violations and infringements of municipal ordinances and all criminal matters under police offenses have been prosecuted. Various hearings have been given as requested.

Your solicitor attended the hearing at Concord on the petition for abatement of tax of the Keene Electric Railway Co., which petition was granted.

Your solicitor also attended the hearing at Concord on the petition of the Keene Electric Railway Company for motorization of its equipment which petition was granted.

Your solicitor also attended to the matter of the sale of the right of way through the Minister's Lot to the Connecticut River Power Company.

The matters now open in Court in which the City is interested are the petition of the Keene Country Club for abatement of tax, the petition of Demetrius Latchis for abatement of tax and the petition of Mrs. Lamprose to clear her title.

Respectfully submitted,

ARTHUR OLSON,

City Solicitor.

Keene, N. H., December 9, 1926.

REPORT OF SUPERINTENDENT OF CEMETERIES

To His Honor the Mayor and City Councils:

The undersigned respectfully submits the report of the Cemetery Department for the year ending November 30, 1926.

The ordinary requirements and routine work of the department have progressed in the customary manner.

The maintenance of roadways and paths require considerable of the department's time and the constant improvement in this work continues to receive favorable comment. The broken macadam in Greenlawn Cemetery roads which was in bad condition has been removed this year and the roadways resurfaced with gravel. Over 450 loads of gravel have been used on the roads and paths in Greenlawn and Woodland Cemeteries.

An extension of two hundred and fifty feet of water pipe has been made in the N. E. Division of Woodland Cemetery to provide for additional faucets.

Through the will of the late superintendent, Mrs. Laura E. Mason, a trust fund of $5,000 was left to the city, the income to be used for general improvements in the cemeteries. The income this year was used toward defraying expense of painting fences.

A new building for garage and storage purposes has been erected this year easterly of the barn. The construction of this building was reduced materially by reason of lumber being cut from trees ordered removed in the cemetery and labor furnished by department employees.

About $300 has been expended on much needed repairs to the tomb in Woodland Cemetery. A cement floor was laid inside, stucco finish applied on the outside, and the roof en-

tirely repaired. A cement walk and necessary aprons were also laid on front of the tomb and entrance to the cemetery.

A one and one-half ton truck was purchased for the department by a special appropriation. With the increase of department work this has been of great assistance on long haul work and proper attention to outlying cemeteries. More detail work has been accomplished and the elimination of outside hauling expense will more than offset the maintenance costs and depreciation of the truck.

A grave stove has been added to the equipment of the department. This is used to remove frost from the ground previous to excavation. As refuse wood is used for fuel there is no additional operating expense and the labor expense is more than cut in half.

Considerable attention has been given this year to improving general apearance of cemeteries, especially in Washington Street where over fifty loads of filling were used in one hundred eighty-seven depressions. Several monuments have been repaired and reset and considerable work is yet to be done in this line notably in Washington Street and West Keene Cemeteries.

During the year twenty-eight new lots containing one hundred ninety-one graves have been developed and fifty are now in process of construction.

Thirty-eight burial lots have been sold; ten single grave; one, three grave, eight, four grave; nine, six grave and ten containing eight or more graves.

There have been one hundred and fifty-three burials, five removals and reburials.

Consideration should be given to the purchase of additional land for cemeteries while adjoining land is available as all cemeteries are fast approaching their capacity.

The receipts for the year are as follows:

December, 1925,	$908.75
January, 1926,	291 00

February, 1926,	350 00
March, 1926,	355 00
April, 1926,	365 50
May, 1926,	507 00
June, 1926,	470 08
July, 1926,	404 50
August, 1926,	373 97
September, 1926,	276 00
October, 1926,	291 00
November, 1926,	1,005 75
Total for the year,	$5,598 55

The foregoing amount has been deposited with the City Treasurer and I hold vouchers for the same.

Respectfully submitted,

CHARLES E. RODGERS,

Superintendent.

REPORT OF DIRECTOR OF PUBLIC PLAYGROUNDS

PLAYGROUND REPORT FOR THE SUMMER OF 1926

The policy instituted a year ago, by which playgrounds were located upon public school grounds, was followed again this season, but in addition Wheelock Park was used. Tilden, Roosevelt, and Wheelock School playgrounds were continued, and a new playground, very well equipped, was opened at Lincoln School. The "Wade-Across" was used again for swimming. The playgrounds were kept open the first five days of the week from 9-12 and from 2-4 o'clock.

Mr. Harold F. Drew was elected director of playgrounds and the playground personnel was made up of Mrs. Drew, Miss Lorna Elwyn, Miss Florence Lane, Miss Doris Darling, Mr. William Connor, Mr. Norman Perreault, Mr. Robert Greene and Mr. Francis Park.

The playgrounds opened on July 5th and closed Aug. 27th.

Roosevelt's attendance was poor from the beginning and the ground was closed after two weeks, attendance not warranting the expense of keeping it open. The playground has no shade and is not particularly well adapted for the work.

Tilden playground was not consistently well attended, although well supplied with equipment and personnel. This ground has a very fine, shady place for younger children, and might be worth while maintaining as a junior playground.

Lincoln schoolground was thoroughly equipped, well laid out, and flourished all season with an average attendance of fifty children per day; practically capacity, as it is a small, compact playground. A very strong community interest was shown in this playground all summer.

Wheelock playground was the leader in attendance, averaging sixty a day, and several times going to 80. This playground ought to be fenced in entirely, and needs fixed equipment, teeters, swings, etc. It seems to fill a decided need in the section of the city in which it is located. It should be continued and improved.

Wheelock Park was used by each ground once or twice a week for a picnic day, and admirably served that purpose. This is a beautiful recreation park and except, perhaps, for its remoteness, could in itself serve all the playground needs of the community.

The "Wade-Across" was very popular, averaging 75 a day, and on many occasions going over the century mark. The children were very carefully safe-guarded, every possible precaution being taken. Twenty-five learned to swim during the summer, and fifteen more were able to pass the advanced swimming tests. Mr. Connor, who was in charge at the "Wade-Across," passed the Senior life-saver's examination of the Red Cross, and Mr. Greene passed the Junior Test. Improvements needed at the "Wade-Across" are a spring-board and another portable bath house.

The playground season closed with a get-together of all the grounds at Wheelock Park. Running events, horse-shoe and quoit pitching, and baseball featured the day, with prizes being awarded the point winners. Refreshments were served to the children at noon.

The average attendance per day for the city was 120, of which nearly 90 per cent was at Lincoln and Wheelock playgrounds. It is strongly recommended that these two grounds be continued. Tilden playground would serve its purpose best if operated solely as a "kiddie corner," open perhaps only in the morning. Wheelock Park is splendid as a special-day recreation ground. The "Wade-Across" is a fine proposition and well worth further development.

Many steps were taken to build up a playground system,

with uniform good results, and another season should see further development and improvement.

Respectfully submitted,

HAROLD F. DREW,

Director of Playgrounds.

REPORT OF OVERSEER OF POOR

To His Honor the Mayor and Gentlemen of the City Councils:

I hereby submit the annual report for the year ending December first, 1926.

The cost of maintaining the poor people of the City in 1926 has increased somewhat over the preceding years, while the cost of maintaining the County paupers shows a marked decrease, this is not due entirely to labor conditions or sickness, but is due a great deal to the change in the pauper law passed by the General Court in 1925, prior to that change, after the City or Town had aided a person for a certain length of time they became County paupers, while under the present law if they are a City pauper to start with they will always be a City pauper as long as they live in the City, or until they have gained a settlement in some other Town, so that eventually the County will only have a very few paupers, and the City and Towns will have nearly all of them.

I wish at this time, on behalf of the City to thank all Churches, societies and private Citizens who have in any way aided the poor people of the City, and I can assure them that their thought and generosity has been greatly appreciated.

Again I want to call the attention of the people of the City to the very efficient work the Keene visiting or district nurse association is doing for the people of the City, and urge everyone to join this association, the cost is only one dollar a year, but these dollars combined relieve a great number of suffering which otherwise would have to be endured.

During the year I have furnished aid to City and County dependents, also dependent soldiers and their families, as follows:

REPORT OF CHIEF ENGINEER OF FIRE DEPARTMENT AND CITY ELECTRICIAN

To His Honor the Mayor and Board of Aldermen:

I hereby submit my annual report for the year ending November 30, 1926. The following alarms were answered by the department:

17 bell alarms; 234 still alarms; 11 out-of-town calls, making a total of 262 alarms.

The estimated value of buildings damaged by fire,	$206,390 00
Damage to buildings,	16,877 50
Insurance on said buildings,	112,200 00
Insurance paid,	11,577 69
Value of contents of said buildings,	59,650 00
Damage to said contents,	4,282 25
Insurance on property,	17,450 00
Insurance paid,	3,882 25

APPARATUS AND FORCE

The apparatus and force of the department under a Chief and three Assistant Chiefs, located on Vernon Street is as follows:

Keene Steam Fire Engine and Hose Co.—John A. Dennison, Captain and 24 men.

Washington Hook and Ladder Co.—Frank W. Streeter, Captain and 19 men.

Deluge Hose Company—Edwin H. Applin, Captain and 19 men.

Ahrens Fox 750 gallon pumping engine hose and booster.

Kissell Combination chemical and hose.

Reo Combination chemical and hose.

Mack ladder truck and chemical.
Amoskeag Steamer, tractor drawn.
Deluge Combination, horse drawn.
Relief Ladder Truck, horse drawn.

We have on hand 9,000 feet No. 1 hose, 1,500 feet of linen hose at South Keene, and 500 feet of No. 2 hose.

Old hose sold during year 800 feet.

During the year there has been another permanent man added to the force. The permanent force now consists of four men and a Chief.

Also another siren has been installed at the corner of Washington and Vernon Streets which was a very bad corner for traffic. This siren is used on alarms going up or down Washington street.

On March 14, 1926 the Fire Station had a fire of unknown origin and a damage to the upper part of the building of about $10,000. His Honor the Mayor, members of the Fire Department, Land and Buildings Committee and Board of Engineers in taking the matter up decided not only to repair the damage done by fire but to modernize the building.

This included a new front to the building with a granite stone marked Central Fire Station set in the front, larger door openings, steel and cement floors and steel ceilings, automatic door openers on first floor, a modern bath room with showers, social room, also a larger meeting and banquet hall. All walls are finished with steel lath and cement plaster on second floor.

The stables and hay mows have been removed to the so-called steamer barn with a solid wall between this barn and the station also extending three feet above the roof. This makes a first class fire proof construction.

The reconstruction is very nearly complete and on completion will be open to the public for inspection.

The Fire Alarm System is in good condition. In the coming year the battery needs to be renewed as five years is about the life of this type of a battery.

During the year as building inspector I have given 100 permits for new houses, 83 for garages, 22 for other buildings, 36 for additions, 65 for alterations and remodeling, 9 for moving and dismanteling.

RECOMMENDATIONS

The Board of Engineers recommend the purchase of 1,000 feet of fire hose and a new fire alarm box.

To the Mayor and Members of the Joint Standing Committee on Fire Department, the members associated with me on the Board of Engineers, Officers and members of the department, and to the public, I extend my sincere thanks and appreciation for the liberal aid and generous support rendered me during the year.

Respectfully submitted,

EUGENE B. RILEY,

Chief Engineer.

REPORT OF SEALER OF WEIGHTS AND MEASURES

To the Honorable Board of Mayor and Aldermen of the City of Keene:

All of the weighing and measuring devices in the City of Keene, that have come to my notice, have been tested and sealed. Very few have been found out of order.

It would be well for the City to have a 20 ton scale to be used for public weighing.

During the year I have tested and sealed 73 gasoline and oil pumps in 45 different places. In 1920 I sealed 19 pumps in 12 different places.

The number of grocery stores have about doubled in the past six years. The work of the Sealer is double the amount that it was in 1920.

EDWIN D. HAYWARD,

Sealer.

Keene, December 3, 1926.

City treasurer,	227,573 63	227,573 68
	$998,856 07	$998,856 07

I have examined, verified and allowed all claims paid by the City during the fiscal year, amounting to $897,742.17, and the disbursements as reported by the City Clerk agree with the entries made by the Auditor in his book.

Respectfully submitted,

WALTER M. HUBBARD,

City Auditor.

VITAL STATISTICS

To His Honor the Mayor and Gentlemen of the City Councils:

In compliance with an act of the legislature, passed June session, 1887, amended by the legislature of 1889, requiring "clerks of towns and cities to furnish a transcript of the record of births, marriages and deaths to the municipal officers for publication in the annual report," I herewith submit the following:

FRANK H. WHITCOMB,

City Clerk.
